WILSON

Secretary of the Interior Urges Far Sighted Policy for U. S. Internal Affairs

Alaska, Parks, Indians, Other Things Covered

(The Associated Press.)

WASHINGTON, Dec. 7.—Need of a far sighted government policy with respect to many of the country's internal affairs is emphasized in the annual report of Secretary Payne, made public today at the interior department. Lack of a definite aim was said to affect particularly the administration of activities in Alaska, in dealing with the Indian tribes, in preservation of the national parks and forests and again in handling the greater reconstruction problem of maintaining a high agricultural production.

While Mr. Payne criticized the uncertainty which he said surrounded many activities, he commended as a strong constructive step the action of congress in making possible the "super power survey" of the region between Boston and Washington with a view to the development of a unified system of power generation and distribution. This investigation, made under the committee's report given to the public about next June, the secretary said, adding that he believes it would deserve public confidence.

On the subject of Alaska, the secretary said the prime problem was transportation and advocated the operation of a government owned steamship line, in order to insure development of the territory's resources. Two lines, now serve the region, but Mr. Payne indicated their service was not satisfactory. He suggested their consolidation as a means of improving the service but this apparently was impossible.

The government railroad in Alaska to a total of 349 miles in length will be completed and in operation in 1922, Mr. Payne reported. He added that it, together with the work of the "one-man" in the process made the question of communication also is one in which little progress has been made and Governor Hays informed Mr. Payne it was seriously handicapped development. Mail is slow, being shipped as freight or express and arriving frequently in badly damaged condition. The governor believes this is due to the fact that the mail is carried by the army and navy vessels which he said was being used disproportionately with the mail.

The governor's report declares that something is being done to build its way into Alaska from British Columbia in large quantities and "bootlegging" seems to be increasing as private stocks of liquor are exhausted. The governor reported that "distillation" processes are becoming well known, adding to the means which he said existed, the report, however, that processes of the Volstead act will be used to the point of whiskey for medicinal purposes has extended to Alaska, claiming that many times could have been used and whiskey lost "absolutely" during the emergency of the government and the influence system in the territory.

He pointed out problems in the United States, Secretary Payne mentions as one of the greatest importance the question of domestic reconstruction as related to farming. The secretary cited various figures showing that the rate of increase of population on farms was only one-fifth as great as that of the nation as a whole. He believed this fact indicated a danger to the nation in the future.

"The difficulty," he continued, "is that people do not like to live alone, but prefer to live in towns and villages and enjoy the convenience and comforts of modern life which are beyond the reach of a scattered population living on large farms. Can this be remedied by the ownership and the formation of neighborhood associations? Small farms bringing the people nearer together and intensive cultivation of these farms may be the answer."

LEAGUE ASSEMBLY GO ONWARD; ARGENTINE DELEGATES LEAVING

(International News Service.)

GENEVA, Dec. 7.—Argentine's delegation to the League of Nations assembly wound up its affairs today. Members will leave tomorrow the latter part of the week.

The assembly meanwhile proceeded with its work as if nothing had occurred. The organization showed its determination to reject Argentine's amendments for the time being by referring them to the committee, to be reported on at next year's session.

Honoria Dreyerudon, head of the Argentine delegation declared he was not working under German influence.

No Mention Is Made of League in the Message

Read to Both House, Wilson Not Appearing

(International News Service.)

WASHINGTON, Dec. 7.—Calling attention to the fact that the United States is the "temple of democracy of the world," and "no such constant under world scrutiny," President Wilson, in his last congressional message today urged upon congress the duty of making this nation the champion of right and justice in world affairs.

"Only by rectifying the wrong within our own borders and championing right wherever it is in danger," the president pointed out, "can the United States fulfill its destiny and keep faith with the fathers of the republic."

The president's message made no mention of the League of Nations, nor any international aspect in particular. It was a short message and more than half of it devoted to domestic affairs. At the last moment, President Wilson yielded to the wishes of his physician and did not attempt to go to the capitol and deliver the message in person, before the joint session of the two houses. Instead, a few minutes before noon, the message was transmitted to each house separately and there was read to the members.

G. N. Rigby, Mayor of Ormond, Gives Some Excellent Suggestions for Division of Volusia County

December 6, 1920.

Editor Daily News,

Daytona, Fla.

One day last week in greeting a gentleman from Daytona I said: "Isn't this a perfect Ormond day?" He answered: "Oh, no; it is a real Daytona morning, though." Both of us were right and still wrong. Daytona, Seabreeze, Daytona Beach and Ormond are all well known throughout the North, but to how many, outside of those who have been here, is it known that they are all within a stone's throw of each other and all on the most beautiful river in Florida, the Halifax.

I met a man North this summer who asked me which had the better climate. Ormond Beach or Daytona Beach. He was much surprised when I told him that it was all one and the same beach. He had been under the impression that one was on the east coast and the other on the west coast. Each of these places do considerable advertising, but the results do not overlap to the benefit of the others. If the Halifax district was known better as the location of these places there would be no leakage of effort.

A number of ways might be suggested to overcome this, but to me, the simplest is one that will serve many other purposes as well. For years, division of the county has been uppermost in the minds of the people of the east coast. Two years ago the proposition to set apart the Halifax road district as a county was only beaten by a small margin. I do not know whether it is possible to accomplish this at the coming session of the legislature in April or not, but I fully believe that it will receive the support of the great majority of our people the next time that it does come before them.

It would give us all a new start with a big object in view and the unity of purpose of our efforts ought to overcome personal differences. You know that petty politicians are but the creatures of the apathy of the citizenry of a community.

INDEPENDENCE FOR PHILIPPINES

(United Press.)

WASHINGTON, Dec. 7.—President Wilson today called on congress to enact a program of legislation, which he said would put the United States in the face front of a movement to make the political power of democracy prevail throughout the world.

In his final regular message to congress, which was sent to both houses of congress by a messenger, the president said there are two ways by which the United States can lead in establishing a doctrine of "right makes might" in the world.

These ways, he said, are: First, by offering an example within her own borders of the will and power of democracy to make and enforce laws which are unquestionably just, second, by standing the right and justice as towards individual nations.

Wilson suggested immediate action by congress to remedy any injustice or evils that may have shown themselves. This would effect a sort of federal effort to force of clean and tyranny. The president did not mention the League of Nations, but recommended the following program: First, immediate passage of the budget bill; second, the strictest economy in government expenditures; third, immediate revision of tax laws; fourth, adequate provisions for disabled soldiers and sailors; fifth, a government loan to Armenia; sixth, granting of independence to the Philippines.

DAYTONA BEACH

DAYTONA BEACH AND SEABREEZE, FLORIDA, THURSDAY, JANUARY 11, 1934

Peninsula Declared Backward in Not Providing a Suitable Camping Ground; Good Suggestions Made

A. W. Shaw, one of the truly live wires of the Daytona Beach-Beaches Chamber of Commerce, is strongly of the opinion that enough attention has not been paid to providing comfortable and convenient camping grounds for automobile tourists.

By all odds the most effective advertising we can do for our community is to secure the good opinion and the commendatory words of the travelers who spend a night or two on our camping grounds, asserted Mr. Shaw most emphatically when discussing the subject with a party of local business men. "We can go to great expense and have thousands of booklets printed and hundreds of dollars more in distributing them, but their influence will be more than counteracted if these visitors speak ill of their treatment while here," continued Mr. Shaw. "I regard every person who stops here as potentially a future citizen of our town. More and more people are passing through here each year by car, and they are going to have the best opinion of the places where they receive the best treatment. As we know many of our people went North last summer by automobile, and as I have heard them talk since returning, they appreciated it where they were able to stop at attractive camping places that were properly equipped."

"We have only one old rickety hotel on our grounds, such accommodations being absolutely inadequate, and I have seen our visitors sitting around a little fire which they had started and trying to read by the light of a dim old lantern. This is not the sort of a welcome that will compel people to speak well of the progressiveness or the hospitality of our community. Our people at heart do not feel that way, but we have been negligent, that's all. We know better. Before the advent of the old Casino the Progressive Club had an arrangement with the hotel that for every dollar the club would take toward providing and equipping a suitable camping ground it would match it and give a like amount. At that time Contractor William Petersohn generously agreed to put up a suitable concrete building, equipped with lights, heaters and seats for the actual costs, and some of our public spirited plumbers agreed to furnish the necessary fixtures at cost and donate their work."

"We could not ask for more, and I believe we could get this same co-operation now if we would get busy. Then we planned on a tile roof and everything in ship shape style. First, we went to find some wide awake citizens liberal enough to donate the use of a suitable tract of land for not less than 10 years. Then we went about to grub, grade and clear it and put it in shape. It should be high so the water would not bother. We should not be interested in a tract that we could not have the use of for a time certain. We had an offer of a good plot if we would do to the property of clearing, but such offer by one, and then of course, we could not afford to consider."

Our camping grounds should be located by electricity from the city central. It would be very easy and convenient to put in the necessary pipes. There should be a provision against automobiles to wash, and there should be that the visitors could see everything and read if they desired.

"When time ago I took an auto trip through a portion of the State, going through Orlando, Ocala, Leesburg, Ocala and other places, and I found most of them badly fixed for camping grounds, equipped as I would like to see ours. Besides, some of them had large attractive signs placed on several miles advertising their camping grounds. They would read: "Fine Camping Grounds (in name of place), Electric Lights, Clean and Comfortable, Good Fishing and Good People, plenty we should offer all this and more. I visited some equipped with laundry and washing facilities, electric lights, and all considered very comfortable."

"I am confident if any visitor will see that we get the necessary location we can get out among the people and very quickly get enough subscription to equip a camping ground equal to the best our neighbors can show. As for myself, I know no other advertising proposition that is more to mean so much to the future growth and prosperity of the town as this."

Some Merchants Respond to Sale Booklets Freely

Secretary R. L. Selden put in most of yesterday on the new booklet proposition visiting and soliciting business men to subscribe for at least 1,000 copies of the publication which will be ready for distribution during the first part of January. While some firms were very prompt in giving their subscriptions he was disappointed in getting turn-downs from some very prosperous concerns. At 3 o'clock Monday he had secured subscriptions from the following not heretofore reported:

J. P. Glenn, Seaside Inn, Cochrane Keating, Casino, George P. Johnson, bicycle, W. H. Courtney, real estate, East Coast State Bank, Florida Realty Co., by F. M. Williams.

Triple City Tire and Accessory Co., Fruitline Manufacturing Co., Seaside Fish Co.

William Petersohn, contractor. It is worthy of note that C. A. Hardall of the East Coast bank and F. M. Williams of the Florida Realty company both said, after making their subscriptions that it was necessary for them to take more, after the canvass had been completed, in order to dispose of the 30,000 that the business men are expected to purchase and distribute that if the secretary would come back to them they would gladly increase their order. This is certainly the right spirit.

Secretary Selden put in several busy hours on this job Monday and he will be at it again Wednesday and Thursday and he hopes every public spirited business man will be ready to join with his pencil sharpened. When the secretary had finished his day's work Monday he had secured subscriptions for 11,000 of the new advertising booklets. He is therefore not yet half through with this task. He hopes for the heavy co-operation interested in a bigger and better Daytona Beach-Beaches.

Branch of Forum to Be Established at Rollins College

Chancellor James Brown of Rollins College, Winter Park, Fla., was here Saturday and Sunday in consultation with Secretary Robert S. Holmes of the National Forum.

As a result of their conference Chancellor Brown has decided to establish a local branch of the National Forum in his college and succeeded in arranging with Secretary Holmes for a considerable portion of the labor which will appear during the approaching season at the Auditorium under the management of the Florida Forum Association. He expressed himself as much gratified that he was able to secure such a number of members with sufficient financial resources to carry out the plan of the forum. At Least 100 People to Be in Cost "The Last Pilgrimage" to Be Given at Auditorium

Mr. Thomas E. Reynolds, who is to direct the production of the opera, "The Last Pilgrimage," at the Auditorium during the winter season, arrived from New York Sunday morning. He is the second time he has directed the people with this extraordinary talent.

Monday morning Mrs. Reynolds held a conference with Director James Heaton and arranged to get four of them with her permission. To begin with, several committees were organized and their progress will be reported from the committee.

They will be looking to this by all of the local people interested in the Florida Forum Association. The committees organized are: Executive, ticket, set, costume, and other committees. They will be looking to this by all of the local people interested in the Florida Forum Association.

Director James Heaton has had a telephone installed in his office in the Auditorium. He can be readily reached during the season by calling 763.

Mr. and Mrs. Edward Tamm and children have arrived from New York, Ohio, and are stopping temporarily with Mrs. C. H. Graham, the Graham's mother, at Halifax avenue and Ora street.

Mrs. Mary Ross has arrived from her summer home in Springfield, O., and is now occupying her office at the Clarendon and Phipps houses.

Mr. and Mrs. George W. Halderman came over to Daytona Beach Saturday by airplane and while here were guests of the Daytona Beach hotel. Mrs. Halderman said she enjoyed the ride through the skies immensely.

SEASON'S PROSPECTS AT PRINCIPLES ARE EXCELLENT

Henry W. Haynes of the Florida Forum Association is very well satisfied with the season's prospects. He had in guests on Saturday, which he says is an average showing for such a short opening. At least 100 people are expected to be present before the opening of the season. He is very optimistic about the future of the forum.

CHICAGO, Dec. 7.—Police still are searching for the male companions of the two actresses who were found dead near the roadway that skirts the lake in Grant Park. They were Miss Marie Ramey, also known as Mary Rhodes (left), and Miss Lillian Thompson (right). They were members of a musical comedy company playing here. Police are working on the theory that the girls were drugged or poisoned, robbed and then thrown out of the car and left to die from drugs and exposure. They had been dead five hours when found. Police also have been unable to find the man who gave them the "tip" that the bodies were there.

MARRIAGE CEREMONY PERFORMED OVER THE ASHES OF 2 BODIES

(The Associated Press.)
ATAMI, Japan, Dec. 6.—A marriage ceremony has just been performed here over the ashes of two bodies in the belief that a single young man and an unmarried woman who committed suicide would have a happy married life in the next world.

The couple committed shikui, or double suicide, for love, by throwing themselves into the sea from the cliffs. Both bodies were later recovered and cremated with the Buddhist ceremonies. The ashes were then brought to the home of the girl's father and he performed a marriage ceremony over them.

According to the Buddhist faith, marriage contracted in this world will carry over to the next.

"SHIMMY SHAKERS" WILL COME UNDER EYES OF POLICE

(International News Service.)
COLUMBUS, Ohio, Dec. 7.—Local "shimmy" shakers are shaking—due to fear.

They are fearful lest Mrs. Evelyn Scatterday, city dance hall inspector, becomes a municipal policeman.

Whether she will carry a gun is up to the city council.

A pending ordinance seeks to increase the city police force by adding forty-five patrolmen and ten policemen.

Providence made that one of the policemen shall be city dance hall inspector.

Mayer Thomas has announced that if the ordinance passes, Mrs. Scatterday will be transferred to the police department, with full police power.

STATE MOTTOES

(International News Service.)
The state motto of Florida is "In God is Our Trust," while South Dakota expresses a similar sentiment in "Under God, the People Rule." Nevada is patriotic with her "All For Our Country." Vermont has a like declaration in "Freedom and Union," and Oregon briefly expresses the same idea in "The Union."

The first umbrella was introduced in Baltimore, Md., by a sailor who brought it from India.

MAIL CARRIER WAS CHAINED TO MAIL BOX

(International News Service.)
EAST WEYMOUTH, Mass., Dec. 7.—"Say, mister, there's a mail box chained to one of your mail boxes down the street," was the interesting bit of information brought to the superintendent of the East Weymouth postoffice by a small boy.

"What do you mean," demanded Superintendent Bert Rice, "one of my carriers chained to a box?"

"Well, they is one, that's all," insisted the boy, "an' if yer don't believe it come on down an' see."

As the two went through the door they met the letter carrier, but without his customary gray coat.

"It was raining hard," explained the unlucky carrier, "and I suppose that I didn't notice my keys were inside the box when I slammed the door and opened the postlock. I just naturally, chained myself to the box."

TAX DODGERS ARE SENT TO JAIL

(International News Service.)
METHUEN, Kas., Dec. 7.—The first city to punish tax dodgers and delinquents in this state is the "lucky city of Methuen." Three of the city's well known men who failed to pay up their back poll taxes were sentenced to the "delinquent wing" of the Lawrence house of correction. Two of them quit the jail after the first day and the third worked out seven days.

The next were permitted more liberties than the regular prisoners, the only orders issued outside of regular prison rules being that they keep their rooms clean, a gun is not shown to jail trustees, tax delinquents, and before the week is over several delinquents to the city jail will be facing jail fare.

AMERICAN AUTOMOBILES GLUT INDIA MARKET

(International News Service.)
LONDON, Dec. 7.—India is glutted with American motor cars, according to a report which has been received here from Bombay.

The report states that 900 American cars are at present lying at the Bombay docks unclaimed. Most of the motor car firms are said to be reducing their prices and that this is particularly so of the firms handling American cars.

The importation of English cars is said to have practically ceased, the manufacturers declining to meet the reduced prices of the American cars.

Record Monday Night Crowd at Baptist Church

It is a record of people in any institution of the kind in a speaker and his audience that it is evident that the church that filled the auditorium of the First Baptist church last night was interested in the sermon of Rev. J. H. Smith. He took as his topic last evening, "Flying," and in speaking upon the topic he told of his personal experience in the art of flying as he had it in the army. Mr. Smith was a "Y" secretary during the late war and as such was privileged a number of times to take trips from Camp Meade, Md., to Arcadia, where he was stationed. His description of his experiences as he related it was thrilling indeed, and for the whole time of his address he had the closest attention of the large audience that filled the church. Prof. J. H. Smith, the soloist, pleased the congregation with his singing and he is a very fine leader. One of the features of the service was the singing of the hymns about which he told of boys and girls. At 7 o'clock each evening Prof. J. H. Smith will entertain the boys and girls of 14 years and over in a story hour at the church school building.

STREET CLEANERS IN MEXICO CITY RAISE AWFUL DUST

(International News Service.)
MEXICO CITY, Dec. 7.—Street cleaning in Mexico City has not improved since the days of the Aztecs. The street cleaner has a long pole, at the end of which is fastened a bundle of twigs. With this he makes a fearful dust, but accomplishes only moderate results in the matter of cleaning.

When a goose of rubbish is large his broom sweeps it, but the dust merely taken wing for a moment, choking successfully in the street, and then settling down to its old place.

The men who wield the brooms look like descendants of the very Aztecs who had the job four hundred years ago. When the Spanish conquerors came, and for a few hundred years before that.

SOLDIER GETS "BONUS" OF \$50,000 IN CASH

(International News Service.)
SAN FRANCISCO, Cal., Dec. 7.—Because he served in the American army during the great war, James P. Thompson, native of Greece, is \$50,000 richer today.

Thompson, who is a brass foundryman at the Southern Pacific shops here, sent a picture of himself, in uniform, to his mother and to his godfather, in Greece. The latter replied by placing the \$50,000 in a bank in Greece for Thompson, in recognition of his godson's services to his adopted country.

Thompson will continue to work in the brass shop.

INVESTIGATE ARMY STORES

(International News Service.)
BOSTON, Dec. 7.—Officials of the First Army Corps Area are investigating charges made by former service men against certain downtown stores concerning fraudulent advertising. It is alleged that these stores are advertising army and navy goods for sale that were never sold by the government.

WE'RE JUST LIKE SAVAGES
